*We're All Around You!*

# SMI is All Around You!

**SMI partners with 3M** to integrate a wide range of medical-grade adhesives and films to aid in the engineering and manufacturing of medical devices to enhance the quality and reliability of our customers products. Our engineers and manufacturing experts work hand-in-hand with you to design the right solution for medical device applications, no matter how complex or how specialized...and always customized.

The controlled environmental conditions of our Class 100 cleanroom provide a clean and hygienic manufacturing and assembly area, and we continually validate all of our critical processes to ensure consistency. Our end-to-end capabilities allow us to provide turn-key solutions for bulk and individualized packaging of items such as diagnostic test strips and filter membranes. From prototypes and cutting to assembly and packaging we provide complete solutions for some of the top companies in the medical industry.

**CONTACT US 800.423.4777**

**Locations & Manufacturing in the USA & China**

*Some of our key medical device products include:*

- Cosmetic Accessories
- Medical PSA/ foam/ laminations
- Precision die cut shapes
- Protective face shields
- Dental components
- Filtration components
- Medical packaging components
- Diagnostic test strip components
- Orthopedic pads and cushions
- Lid seals
- Molded and extruded rubber
- Medical patches
- Liquid adhesives & sealants

*Key Applications:*

- Custom gaskets, tapes, seals & precision die cuts
- Wearable components
- Diagnostics and micro fluidics
- DNA Microarrays
- Instruments
- Specialty lamination die cuts
- Skin contact adhesives
- Filtration products
- Medical packaging

## Our **Sticking** Point

Our industry-specific, state-of-the-art medical industry solutions provide an uncompromising level of performance in this fast-paced, innovative market space. Our components are in medical devices all around you. Our strategic partnership with 3M is one of the many contributors to our developing quality parts, ensuring your ability to deliver the highest standard of patient care.

**We look forward to working with you to create custom tailored solutions for all your medical device component needs.**
