ISO/IATF 16949 REGISTERED COMPANY

HP AFTERMARKET AUTOMOTIVE

Seal Methods Inc. has been manufacturing High Performance Aftermarket engine and drive train gaskets since 1974! These products have always been at the core of our business, and we remain a leader in the manufacturing, private labeling, and kitting of these components – all built to our customers' exacting specifications.

UNRIVALED INNOVATION

Seal Methods is dedicated to staying at the forefront of automotive gasket design & attachment and sealing technologies. By combining the most appropriate materials with the most efficient manufacturing processes, we are able to provide the best performing solution for every aspect of vehicle operation and assembly.

APPLICATIONS

Our parts can be found on a retail shelf, or as part of an assembly used in high performance applications. From engine builders to component manufacturers to retail distributors, Seal Methods is able to help you create the best.

INDUSTRY-LEADING QUALITY

As an industry-leading solutions provider with a global customer base, we offer the highest degree of product quality and integrity. Our technical sales team and experienced staff are committed to providing an unmatched level of customer support to exceed our customers' expectations.

SMI: Your source for seals, tapes, die cuts and custom components for the High Performance Aftermarket Industry.
