

SEAL METHODS INC.

GASKETS, SEALS, TAPES & PRECISION DIE CUTS
ISO/IATF 16949 REGISTERED COMPANY

The World's Largest Selection of Custom **Industrial Components**

Key Products

- Gaskets
- Phenolics
- High-temperature composite
- Gasket materials
- Cork gaskets
- Sponge rubber
- Vulcanized rings
- Molded/ Extruded Components
- Protective film
- Rubber gaskets
- Material recommendations
- Liquid adhesive & sealants
- Foam-In-Place Gasketing (FIP)

INDUSTRIAL COMPONENTS

With our strong –over 40 year history as a premier manufacturer of gaskets, seals, tapes and precision die cut components, Seal Methods, Inc. is a key supplier of these products to all major industrial markets. Our state-of-the-art manufacturing facilities encompass 350,000 square feet of automated, high-speed rotary and flatbed die-cutting equipment, numerous converting lines, and a Class 100 cleanroom. We also have reciprocating knife cutting, laser, and waterjet cutting equipment to support short run production and rapid prototyping. Our robust manufacturing and quality systems emphasize continuous improvement, environmental stewardship, and are ISO IATF /16949 certified.

APPLICATIONS

We manufacture a full spectrum of specialty components, from simple foam or felt rolls or sheets to intricate multi-layer, precision die-cuts. Our custom designed shapes are used in everything from petrochemical and heavy equipment to general purpose custom components found in appliances, aircraft, sporting equipment, retail items, toys, and more.

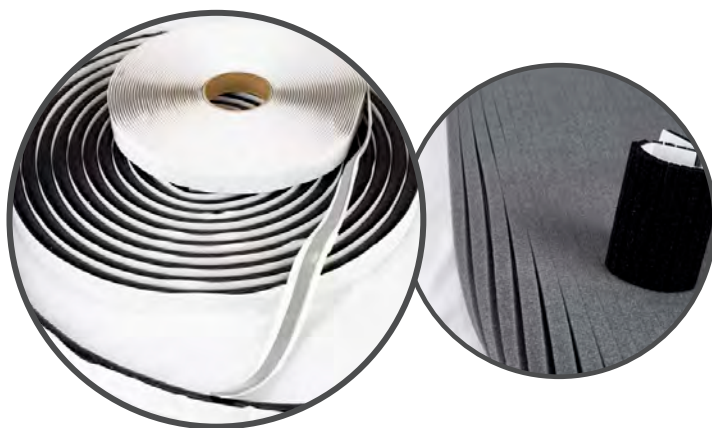

In the appliance market, we help solve issues related to thermal and electrical insulation, EMI/RFI shielding, radiant heating or cooling, component attachment, and sealing. We provide necessary components for wind and solar energy. Wire manufacturers around the globe take advantage of our innovative wiping system that promotes quality and uniformity in their galvanized products. These are just a few examples of the breadth and depth of our capabilities.

EXPERTISE BEYOND MANUFACTURING

We are more than just a manufacturer: We have a remarkably talented staff with a deep background in materials sciences who work closely with your in-house engineering teams to improve the efficiency, longevity, and production costs of your products. Our turnkey services include custom assembly, kitting, and private label or bulk packaging. When you work with us, you can expect prompt service from a knowledgeable staff.

ESTABLISHED SUPPLY CHAIN & COMPETITIVE PRICING

We supply finished components made from foams, solid elastomer felts, cork, gasket materials, adhesives, and phenolics as well as plastic films, metal foils, and many other specialty materials. Our long-term relationships with leading raw material manufacturers allow us access to the most cutting edge products at competitive pricing. As one of the most capable and competent manufacturers in the world, we are well positioned to meet and exceed your end-to-end production requirements.

SMI: Your source for industrial seals, tapes, die cuts and custom components.
