

**SEAL METHODS INC.**

GASKETS, SEALS, TAPES & PRECISION DIE CUTS  
ISO/IATF 16949 REGISTERED COMPANY

**SMI offers the **widest capabilities**  
of any **specialty component fabricator**  
in the world, including:**

## *Key Products*

- > Rapid component prototyping
- > Precision rotary die cutting and lamination
- > Flat stamp cutting of parts from small and intricate to heavy duty
- > Water-jet cutting - common lines, no concavity
- > Knife cutting
- > Slitting and lamination of adhesives, foams, foils, films, elastomers, high temp composite and more
- > Custom molded rubber and extrusions
- > Private labeling, assembly, packaging and fulfillment
- > Foam-in-Place Gasketing (FIP)

**We manufacture custom gaskets, seals, tapes and precision die cuts for a wide array of industries.**

ISO/IATF 16949 REGISTERED COMPANY

Seal methods Inc, privately held and family run since 1974, has grown into one of the most diversified materials converters in the country. With multiple facilities around the world, we are a custom converter, manufacturing rotary and flat stamp die cuts, multi-laminations, water-jet, and laser cut materials.

SMI specializes in using materials ranging from sponge or rubber to high-performance elastomers, foams, films, plastics and pressure sensitive adhesives. We work closely with our clients to prototype and manufacture custom applications, whether you need a simple cushion or adhesive tape, or high-performance gaskets, seals, insulators or thermal barriers.

We pride ourselves on the high quality of our products, partnering closely with leading material manufacturers including 3M, Rogers, Saint Gobain, Tesa, Dupont, ITW Formex, Bergquist, Interface Solutions, Nitto Denko, Armacel, Sekisui, and many others.

**SMI manufactures custom designed shapes for:**

- > Sealing
- > Vibration
- > Gasketing
- > Cushioning
- > Bonding
- > Insulating
- > Surface Protection
- > Venting
- > Packaging
- > Shielding
- > NVH / BSR
- > Fire Block
- > Thermal Management
- > EMI / RFI Shielding
- > Custom Application's

**Global Manufacturing**

Seal Methods has expanded our capacity and ability to deliver to clients worldwide.

SMI's state-of-the art facilities deliver unprecedented capacity, economies of scale, and the expertise that enterprises around the world need in an outsourcing partner, with:

- > A Class 100 Cleanroom
- > 250 employees world-wide
- > More than 80 different production machines
- > Process engineering experts
- > Rapid prototyping
- > Multi-layer laminations with precision registered die-cutting
- > High speed rotary and automated flatbed cutting
- > Heat sealing, vulcanizing, rewind slitting, roll slitting
- > Custom assembly, packaging and kitting

# A GLOBAL COMPANY

With a total of 4 facilities in North America, SMI has grown to 150,000 square feet of manufacturing space to perform for you!

## Headquarters

Southern California

Our HQ in Santa Fe Springs, CA is home to our highly skilled engineering team, technical sales support and experienced staff that provides our customers with solutions globally. Our facilities in Santa Fe Springs encompass 80,000 square feet.

## Northern California

This 40,000 sq/ft remote facility in Northern California offers full converting capabilities and is located near key accounts so we can service just in time workflows.

## Austin TX

With 15,000 sq ft of manufacturing and warehouse space, we know supply chain proximity and ease of working relationships are key in this economy. Our expansion to Austin, TX allows us to continue facilitating the needs of our customer base at the highest level. SMI is committed to supporting our clients in the best way possible.

## Mexico

Our expansion into Mexico, 15,000 sq ft, with the investment in VFMX places SMI in a strategic position that is beneficial to our clients for both increased turnaround speed and new product offerings. This manufacturing facility is expanding capabilities daily, while being located in a key automotive hub near Mexico City.

## China

Sourcing alliances with rubbermolded and extruded components, allow us to always have international manufacturing options to serve you.

## Sales Offices

Being close to the customer is important to us, we have sales offices in southern and northern California as well Arizona and Texas.

Our Multiple facilities and sales offices make it easy to work with Seal Methods. As a key player in the automotive and electric vehicle (EV) parts industry, SMI offers versatility and innovative solutions that meets our client's demands across all industries served.
