

SEAL METHODS INC.

GASKETS, SEALS, TAPES & PRECISION DIE CUTS
ISO/IATF 16949 REGISTERED COMPANY

Quality Manufacturing That **Drives** the **OEM Automotive** Industry

Key Products

Automotive safety: Inflator burst
foil seals & cushions
Seat belt components
NVH
Water shields
Precision die cuts
Buzz, squeak & rattle
Venting seals
Gaskets
Molded / extruded rubber components
Sealing
Bonding
Surface protection
Custom applications
Private label manufacturing & kitting
Assembly & packaging
Liquid adhesive & sealants
Foam-In-Place Gasketing (FIP)

We are the world's most comprehensive specialty components fabricator, and a global leader in die cut solutions. Our diversified manufacturing technologies have allowed us to service the OEM automotive market with a wide range of solutions.

ISO/IATF 16949 REGISTERED COMPANY

OEM
AUTOMOTIVE

EXPERTISE

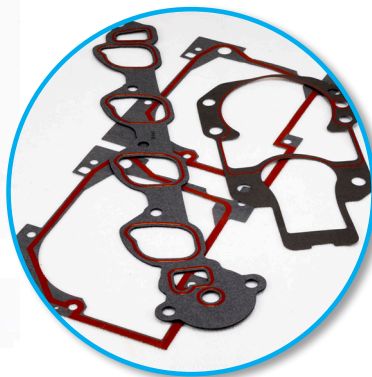

As one of the first gasket manufacturers to achieve our IATF/16949 certification, we maintain a leadership position as a supplier for the OEM Automotive Market. Our manufactured products can be found throughout automotive applications. From Safety (air bag inflators and seat belts) to interior noise and vibration, attachment, instrumentation, electronics, drive train, under hood and exterior components, Seal Methods has the material knowledge and fabrication skill to help you create the best.

SPECIFICATION CONSULTING

Our sales engineers guide you through the selection of an almost limitless number of choices to find the one most appropriate – both performance-wise and price-wise – for your application.

QUALITY YOU CAN BANK ON

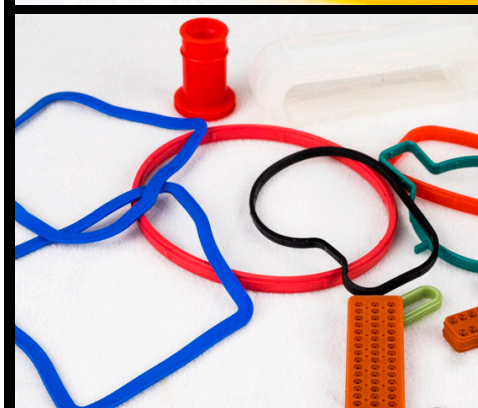

Through process design and effects analysis, statistical control of variation, and team-oriented problem solving, we aggressively pursue improvements to our quality system and have brought our manufacturing systems to an unparalleled level of performance.

MATERIALS

We supply finished components manufactured from foams, foils, elastomers, butyl, composites, films, high-performance gasket materials, graphite, and plastics, as well as pressure sensitive tapes, adhesives, and other specialty materials. Through long-term partnerships with leading raw material manufactures, we have access to the most cutting-edge materials at very competitive prices.

SMI: Your source for gaskets, seals, tapes, die cuts and custom components for the OEM Automotive Industry.
